MEMORANDUM FOR: NIO for USSR-Eastern Europe
FROM: Director of Central Intelligence
SUBJECT: Briefing Package on Sino-Soviet Relations

25X1
25X1

In the package on Sino-Soviet relations that I have been studying [redacted] I find [redacted] 25X1
[redacted] It contains all of the information that you gave me [redacted] some weeks ago. When I gave those briefings I left no papers behind because of the sensitivity of the source. Now we've spread this thing around in even greater detail and I'm confused as to what has happened to change the sensitivity. I don't like the idea of my presenting it at the top levels as an extremely close-hold item and then having it distributed this widely. Can you tell me what changed [redacted] 25X1
